

*Hello, I am Brittany Pool, an Artist, Singer Songwriter, and my passion is creating music.*

*Music is defined as “humanly organized sound.” It is a universal language in which we all can connect with. My music is shaped by the mountainous and hilly country of Arkansas as well as the swamps and bayous of Louisiana. Over the past couple of years I’ve learned the art of songwriting along with the guidelines of the music business in Nashville, TN. I’ve played numerous live shows and songwriter festivals to ready myself for the road ahead. This past year I have recorded my very first album in Nashville, Tennessee and Muscle Shoals, Alabama. This album features the infamous Rock and Roll Hall of Fame studio band, The Swampers, as well as other very well-known studio artists such as Rob McNelly, Jim Brown, Tommy Harden, and Jimmy Carter.*
